OnExam v2.0 Updates Summary

- Recruited 6 section editors and 18 chapter editors for OnExam v2.0 Team.
- Section and Chapter editors reviewed, edited, and updated History, Physical, and Special test components of all chapters.
- Chapter editors authored Objective Structure Clinical Examination (OSCE) checklists for 12/15 Chapters, which appears under same level as History, Physical and Special Tests.
- Added Diagnostic Imaging Chapter to OnExam v2.0, which includes Imaging Modalities, Approaches to Common Imaging and Imaging Guidelines.
- Recruited 14 Faculty Advisors, all medical or surgical specialists from Sudbury, Sault Ste. Marie and/or Thunder Bay who signed contracts in support of OnExam medical app.
- Faculty Advisors reviewed and edited information in chapters pertaining to their medical field of expertise to make information more clinically relevant.
- Public advertisements of the OnExam app now appear under websites for the CFMS, NOSM, and NOSM Student Society.
- To appear in handout in Wellness Package to all Ontario Medical Clerks under "OMSA Top Medical Apps for Clerks."
- News articles to be portrayed about OnExam app under CFMS Medical Student Spotlight and NOSM online news section.
- Overall fix of spelling errors, broken links, and glitches in the app.

Potential Future Endeavours

- Please refer to Dr. Jesse Zroback's article on "Development and Evaluation of OnExam: A Mobile Device Application for the History and Physical" for future potential recommendations
- Recreate/revise OnExam online website
- Make all chapters more consistent with the addition of pathologic positive and negative findings in physical exams/special tests
- Further the OSCE sections by including more clinical checklists and start a procedural skills OSCE section
- Add start/stop/reset timer to OSCE checklists
- Include more visual media such as pictures, diagrams and video
- Increase the number of searchable words for special tests
- Create additional chapters such as ophthalmology, geriatrics, anesthesia with history, physical, special tests and OSCE components.
- Increase number of Faculty Advisors
- Increase promotion and awareness of OnExam medical app
- Potential financial gains from this medical app
